

## **SUSTAINAQUA E-Learning Courses – First E-Mail or Web Announcement**

SustainAqua is a three-year collective research project partly funded by the European Union under the Sixth Framework Programme. SustainAqua aims to make freshwater aquaculture more sustainable and thereby to help European aquaculturalists to become globally competitive.

The SustainAqua E-Learning Courses provide a practitioner-oriented overview of the results of SustainAqua. The E-Learning Courses will focus on:

- Principles of sustainable aquaculture
- SustainAqua case studies' experiences
- Legal aspects of sustainable aquaculture

**Target Group:** Practitioners interested in sustainable aquaculture concepts and respective practical experiences

**Date:**

- Course 1: 29.6., 30.6., 2.7. and 3.7. 2009
  - Course 2: 6.7., 7.7., 9.7. and 10.7. 2009
- (Both courses will feature the same content and program)

**Language:** English

**“Venue”:** The courses will be entirely internet based

**Course Time:** Each course day from 17:00 to 18:30 (Swiss Time)

**Facilitation:** The E-Learning Courses will be facilitated by IEES (Johannes Heeb). Further persons will join the courses as resource persons / experts

**Fees:** No course fees will be charged to the participants
