

Science. Communication. Knowledge. Innovation.

Knowledge Management & Innovation Partners in **HORIZON 2020** LET KNOWLEDGE FLOW

Horizon 2020

Horizon 2020 presents innovative opportunities for collaboration in pursuit of scientific research that will lead to lasting benefit for Europe's citizens. AquaTT is committed to its aim of partnering in projects in order to show demonstrable value creation from research, resulting in significant contributions towards solving many of the societal challenges facing Europe.

Who We Are

With 26 years' experience, AquaTT is a leader in scientific knowledge management. We are specialists in ensuring that the new knowledge generated by European funded scientific projects is effectively transferred to create maximum positive impact. AquaTT has built a multidisciplinary team from across Europe with a range of professional backgrounds in scientific research, education, business, industry, and communication.

What We Do

AquaTT partners with research consortia to design projects that will have positive societal impact. We collaborate with more than 250 institutions in more than 40 countries. We use our team's collective expertise to create knowledge transfer and dissemination plans specifically tailored for each new project. We are currently a partner in 10 projects funded by the Horizon 2020 programme, alongside one Erasmus+ project, and one funded under the Executive Agency for SMES (EASME) European Maritime and Fisheries Fund (EMFF).

Our Expertise

Knowledge Management, Dissemination, Communication, Knowledge Transfer, Project Management, Outreach, Training, Stakeholder Engagement, Commercialisation, Website Design, Event Management

AquaTT works with its partners throughout the lifecycle of a project, adding value and helping to maximise the societal impact of the research being conducted.

If you are looking for a knowledge management partner or would like to discuss other **Horizon 2020** opportunities, please contact:

Our Project Participation and Roles – June 2018

Project Management

Education & Training

Knowledge Transfer

Communication and Dissemination

Stakeholder Engagement

ASSEMBLE

H2020

Stimulating European excellence in marine biology and ecology research by providing scientists a quality-assured programme of access to marine biological stations

www.assembleplus.eu

SEAFOOD TOMORROW

H2020

Nutritious, safe and sustainable seafood for consumers of tomorrow

www.seafoodtomorrow.eu

BIOCON-CO2

H2020

Microbial platforms for CO₂-reuse processes in the low-carbon economy

www.biocon-co2.eu

REVIVED WATER

H2020

Low energy solutions for drinking water production by a REvival of ElectroDialysis systems

www.revivedwater.eu

H2020

A trans-Atlantic assessment and deep-water ecosystem-based spatial management plan for Europe

www.eu-atlas.org

H2020

AQUAculture infrastructures for EXCELlence in European fish research towards 2020

www.aquaexcel2020.eu

H2020

Advanced tools and research strategies for parasite control in European farmed fish

www.parafishcontrol.eu

H2020

Genetic diversity exploitation for innovative macro-algal biorefinery

www.genialproject.eu

H2020

Multi-stakeholder dialogue in the aquaculture community, within South East Asia and between South East Asia and the EU

www.eurastip.eu

H2020

Integrating innovative approaches for competitive and sustainable performance across the Mediterranean aquaculture value chain

www.performfish.eu

Our projects in other funding programmes' section

ERASMUS+

Maritime Alliance for fostering the European Blue Economy through a Marine Technology Skilling Strategy

www.projectmates.eu

EASME-EMFF

Disruptive and forward-looking opportunities for competitive and sustainable aquaculture

www.invertebrateitproject.eu
